Epigenetics: Inheriting More Than Genes

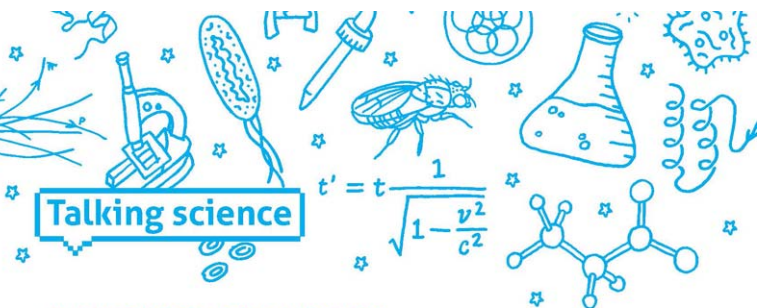

C. David Allis, Ph.D.

Monday, December 30, 2013

10:30 a.m. – 2:30 p.m.

$$t' = t \frac{1}{\sqrt{1 - \frac{v}{c}}}$$

THE ROCKEFELLER UNIVERSITY

Epigenetics: Inheriting More Than Genes

Spend a day on our campus with award-winning molecular biologist **C. David Allis, Ph.D.** to learn about the science of epigenetics and how his groundbreaking discoveries are revolutionizing our understanding of heredity, evolution, and medicine.

Monday, December 30, 2013

10:30 a.m. – 2:30 p.m.

The Rockefeller University

Casparly Auditorium

1230 York Avenue at East 66th Street

New York, NY 10065

Visit www.rockefeller.edu/talkingscience for more information, including a full schedule of exciting events and activities. The *Talking Science* event is intended for teachers and high school students only. All attendees must be registered by their school ahead of time using the online registration form at the web address listed above.

We look forward to seeing you on campus!

Presented as The Rockefeller University's 54th annual Holiday Lecture on Science for High School Students.
